EXPERIENCE

- July 2019 – Present **Yahoo, RYOT – Head of Product (Principal Product Manager)**
- Head of Product for Yahoo's Immersive Platform, including people managing international team of 14 technical artists, PMs, designers and engineers pre/post acquisition.
 - Building patented cloud media production pipeline for 3D/2D content. Generating 250 procedural videos per week in Yahoo Fantasy that reach peaks of 7.5M views per day (up 87% YoY).
 - Defined core elements/functionalities of our 3D creator platform (100+ creators) that publishes experiences that millions of people have interacted with.
- January 2019 – Present **GLITCH – Co-Founder**
- Designing AI fashion, datasets, and software, and promoting inclusion through AI creativity.
 - Built partnerships and created curriculum with Nvidia, MIT and London College of Fashion.
 - Hosted 12 workshops at universities and conferences teaching creative applications of GANs.
- August 2017 – June 2019 **MIT Media Lab – Object Based Media Group Research Assistant**
- Invented and patented inexpensive, autostereoscopic, 360-degree display system and shaders.
 - Implemented computer vision interactions for novel display technologies including holograms.
- June 2017 – August 2017 **Universal Creative – Advanced Technology Interactive Software Intern**
- Prototyped three interactive systems for Nintendo themed land, one with XR, all now launched.
 - Implementation scope included software, hardware, sound design and media.
- June 2016 – June 2017 **Walt Disney Imagineering – R&D and Show Software Intern**
- Developed computer vision tools with IR cameras and high-speed projectors and prototyped wearable electronic devices to interface with cameras.
 - Designed prototypes for two interactive kiosks in Epcot and managed software development.

LEADERSHIP

- July 2021 – Present **Project Management Automation Lead Yahoo, RYOT**
- Leading initiative to automate project management processes through Google App Scripts, so team members can develop their work more effectively and leadership can have simple visibility
 - Programmed five templates, so far, to submit feature ideas (200+ submissions), create project drives and documentation (20+ submissions), and record interview feedback (40+ submissions).
- August 2020 – Present **Events Lead Yahoo APM Program**
- Created four new event series, Podcast Club, External Speaker Series, Friday Fun, and Think Tank, with full participation from APMs and leadership. (80 events, 8 resulted in VP/CEO sponsorship)

EDUCATION

- Massachusetts Institute of Technology (MIT), Cambridge, MA**
- June 2019 MS in Media Arts and Sciences – MIT Media Lab GPA: 5.0/5.0
- June 2016 BS in Computer Science and Music GPA: 4.5/5.0

SKILLS

Technical Skills: AR/VR, Computer Vision, Computer Graphics, Electronics, Rapid Prototyping

Software: C++, C#, Python, HTML/CSS, JS, Unreal Engine, Unity, Google App Scripts

Creative Skills: 3D/2D Animation, UX Wireframes, Concept Design, Public Speaking

Tools: Adobe Creative Suite, Figma, Spark AR, Houdini, Marvelous Designer
